

COVID-19 TIMELINE

DIAGRAM BASED ON COVID QUARANTINE / ISOLATION ADVICE FOR A MODERATLY ILL PATIENT RECOVERING AT HOME

- PLEASE NOTE THAT LATEST STATISTICS ESTIMATE THAT 45% OF THE POPULATION ARE A-SYMPTOMATIC AND THEREFORE IF ANYONE IN YOUR FAMILY IS UNWELL OR HAS BEEN IN CLOSE CONTACT WITH A COVID POSITIVE PERSON - THEN PLEASE ISOLATE / FOLLOW MEDICAL ADVICE / GET TESTED AT THE APPROPRIATE TIME.
- MANY PEOPLE AT BRESCIA LIVE WITH GRANDPARENTS AND OR HAVE CO-MORBIDITIES SO WE NEED TO CONSTANTLY BEAR THIS IN MIND AND ALWAYS ERR ON THE SIDE OF CAUTION.
- PLEASE REMEMBER IF THERE IS A POSITIVE CASE IN YOUR HOUSEHOLD, OR IF ANYONE IN YOUR HOUSEHOLD IS AWAITING TEST RESULTS, THEN YOU MAY **NOT** COME TO SCHOOL.
- IN ADDITION, IF SOMEONE IS ILL IN YOUR HOUSEHOLD OR DISPLAYING ANY SYMPTOMS THEN YOU MAY **NOT** COME TO SCHOOL.

PATIENTS THAT HAVE TO BE HOSPITALIZED: VIRAL LOAD IS GENERALLY GREATER AND THUS THEY NEED TO START THEIR 10 DAYS ISOLATION ONLY AFTER THEY ARE RELEASED FROM HOSPITAL AND THEIR SYMPTOMS HAVE IMPROVED (AND PER THEIR DOCTOR'S ADVICE)

ALWAYS FOLLOW MEDICAL ADVICE. HOWEVER IT IS PRUDENT TO WAIT AT LEAST FOUR DAYS AFTER POSSIBLE CONTACT WITH COVID-19 POSITIVE PERSON BEFORE YOU GET TESTED (UNLESS YOU DISPLAY SYMPTOMS OR ON MEDICAL ADVICE). THUS AT BRESICA WE ASK YOU TO ISOLATE FOR A MINIMUM OF FOUR DAYS AFTER POSSIBLE CONTACT, AND ON THE FIFTH DAY IF NO SYMPTOMS YOU CAN RETURN TO SCHOOL, IF SYMPTOMS - THEN GET TESTED & AWAIT OUTCOME
